

Training Seminars

One-Day Seminars:

Monday, June 15
9:00am – 4:30pm

DMC 3000™ Electronic Dosimeter Training (Hardware & Software)

– David Jarrow and Jess Griffin

Mastering Vital® Supervision: Optimize Safety, Efficiency, and Integration – NEW!

– Steve Laskos and David Yostrum

Contamination Monitoring Operations – Basic

– Kurt Dickhoff

Practical QA/QC Considerations in Gamma Spectroscopy

– Terry Schwager

MDA from the Ground Up

– Emerson Dang

Mirion Telemetry System Training: Design, Configuration, and Optimization – NEW!

– Kris Bauer

BioTrax Quality Management System (QMS) Software – NEW!

– Jason Frederick

Tuesday, June 16
9:00am – 4:30pm

Image Reconstruction Design and Optimizing Algorithms for Gamma and Neutron Advanced Data Analysis – NEW!

– Dr. Marcel Villani

Contamination Monitoring Operations – Advanced

– Kurt Dickhoff

iCAM™ Operations

– Terry Schwager

ISOCS™ Uncertainty Estimator

– Emerson Dang

Master the Mirion Radiation Tolerant Camera for Extreme Environments – NEW!

– Khalil Divan, Dylan Palmer, Chris Denicola

Portable Instrument Repair Training – NEW!

– Kris Bauer

Dose Calibrator Theory and Operation for Radiopharmaceutical Manufacturing – NEW!

– Eric Offner

Two-Day Seminars:

Monday – Tuesday, June 15 – 16
9:00am – 4:30pm

Fundamentals of Gamma Spectroscopy

– Mike Diaz

How to Build LabSOCS™ Models and Incorporate into your Gamma Measurements

– Celeste Olive

Apex-Alpha/Beta™ Operations

– John Cox

HPGe Detector Setup and Troubleshooting

– Tim Royals and Jeff Wetzler

Alpha Analyst™ Hardware and Troubleshooting Training – NEW!

– Kharis Johnson
